

About Persia Ceramic Arya

PERSIA CERAMIC ARYA company started its production activity in 2015 with the purchase of Arya Ceram factory and with the aim of producing sanitary porcelain products in accordance with the latest international standards.

In 2016, after detailed technical and industrial studies and benefiting from experienced engineers in this industry from Italy and Turkey, the plan for development and modernization of machinery and production lines was prepared and started, and in 2017, the first phase of production was put into operation.

At present, the company with a production capacity of 3200 tons this year has a variety of porcelain sanitary products from porcelain and chamotte porcelain (FFC).

The company's production line, equipped with the latest European machines, including high-efficiency and environmentally friendly kilns, fully and semi-automatic casting lines for one-piece products, all types of toilets and wash basins, as well as siphon and robot glazing systems and slip preparation systems. The main vision of **PERSIA CERAMIC ARYA** company is creativity and innovation and offers various products and continuous quality improvement of products.

Innovation lights up the future

Wash Basins

Designed with painstaking attention to detail, each wash basin represents excellence in manufacture, and the ultimate in precision and control in ceramic sanitaryware.

Clean

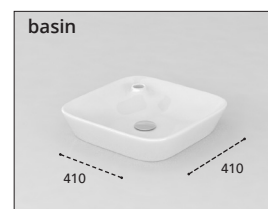

A modern, minimalist bathroom vanity featuring a white ceramic washbasin with a chrome faucet. The washbasin is rectangular with rounded corners and sits on a white countertop. The faucet is a single-lever design with a vertical stem and a horizontal spout. The vanity is set against a white wall with a large mirror above it. The mirror reflects a window with white vertical blinds and a view of greenery outside. The overall aesthetic is clean and contemporary.
